PARTS CHECKLIST

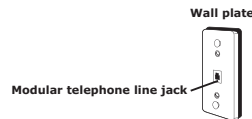

Make sure your package includes the items:

NOTE: If you find any of the parts missing, please contact your local shop where you buy this product right away.

TELEPHONE JACK REQUIREMENTS

To use this phone, you need a RJ11C type modular telephone jack, which might look like the one pictured here, installed in your home. If you don't have a jack, call your local phone company to find out how to get one installed.

INSTALLATION

CAUTION: Disconnect the phone cord from the wall outlet before installing or replacing the batteries.

- Never install telephone wiring during lightning storm.
- Never touch un-insulated telephone wires or terminals, unless the telephone line has been disconnected at the network interface.
- Use caution when installing or modifying telephone lines.
- Never install telephone jack in wet location unless the jack is specifically designed for wet locations.
- Temporarily disconnect any equipment connected to the phone, such as faxes, other phones or modems.

INSTALLING AND REPLACING THE BATTERIES

Your Caller ID phone uses 3 AA-Size alkaline batteries for receiving and storing Caller ID records and for storing the numbers you use frequently.

IMPORTANT: If you are not going to use the telephone for more than 30 days, remove the batteries because they may leak and damage the unit.

BATTERY

1. If the telephone line cord is connected, disconnect it from the base unit.
2. Carefully turn over the phone, use a pen or paper clip to loosen the battery cover. Open the battery compartment by pushing on the battery cover and sliding it away from the unit.
3. Insert 3 AA-size alkaline batteries (not included) as shown on the diagram in the battery compartment.
4. Snap the battery compartment door back into place.
5. If the line cord was previously connected, reattach it to the unit and check your memory locations.

INSTALLING THE PHONE

Your phone should be placed on a level surface, such as a desk or table top, or you can mount it on a wall.

1. Connecting the handset.
2. Connecting the telephone line.

WALL MOUNTING

1. Rotate the wall mounting knob as shown in the following layout:

WALL MOUNTING: The knob is designed to keep this unit in place when the telephone is vertical on the wall.

2. Install the base unit to the wall and then plug one end of line cord into the junction box and the other end into modular telephone line jack marked "T".

TROUBLESHOOTING TIPS

No Dial Tone

- Check all cabling to make sure that all connections are secure and not damaged.
- Check hook switch: Does it fully extend when handset is lifted from cradle?

No Display

- Replace the batteries.
- Check for proper battery installation.

No Information is Shown After the Phone Rings

- Have you subscribed to Caller ID service from your local telephone company?
- Be sure to wait until the second ring before answering.

Phone Dials in Pulse with Tone Service

- Make sure T/P DIAL MODE is set to TONE DIAL.

Phone Won't Dial Out with Pulse Service

- Make sure T/P DIAL MODE is set to PULSE DIAL.

Phone Does Not Ring

- You may have too many extension phones on your line. Try to unplug some extension phones.
- Check for dial tone. See troubleshooting tips for no dial tone.

Incoming and Outgoing Voice Volume Low

- Are other phones off hook at same time? If so, this is normal condition as volume drops when additional phones are used at once.
- Check the handset receiver or speaker volume.

The store where you bought your telephone can also provide you with information and after-sales support.

GENERAL PRODUCT CARE

To keep your phone working and looking good, follow these guidelines:

- Avoid putting it near heating appliances and devices that generate electrical noise (for example, Motors or fluorescent lamps).
- DO NOT expose to direct sunlight or moisture.
- Avoid dropping and other rough treatment to the unit.
- Clean with a soft cloth.

- Never use a strong cleaning agent or abrasive powder because this will damage the finish.
- Retain the original packaging in case you need to ship it at a later date.

Used equipment must be disposed of in compliance with current environment protection regulations. You should return it to your reseller or dispose of it in an approved recycling center.
